Bailey Well East of Didsbury Has Gas Potential of 50,000,000 Cu. Ft.

After weeks of testing operations, including reaming and cementing, the Bailey Oils No. 1 well 13 miles east of Didsbury "kicked-off" on its own, testing gas pressure without swabbing early Wednesday morning. August 8, and tests are now continuing at the well.

At the first test Wednesday the well was making over 10,000,000 cubic feet of very wet gas daily, and testing will continue for several weeks in order to determine actual gas production which is now estimated at around 50,000,000 cubic feet per day.

At the rate of 10,000,000 cubic feet daily the well, if allowed to flow, would produce about 200 barrels of naphtha per day, with estimated light oil gravity test of 50 deg. re.

The discovery well, first believed to be in the D-2 Devonian zone has now been determined as getting production from D-3 coral reef. The D-2 horizon did not show production, although some porosity was encountered.

Because of the high pressure at the well precautionary methods have to be taken, and this will probably slow up testing operations.

Production is being held to 1000 foot level, and back pressure registered 2300 p.s.i., while bottom hole pressure was 3500 p.s.i.

The well was tested with 2000 gallons of acid before being brought into production last Wednesday morning.

WELL GETTING BETTER

The oil editor of the Calgary Albertan, who visited the well site on Saturday gives the following latest news about the Bailey Oils well:

"The Bailey Oils D-3 'well' gas discovery 40 miles northeast of Calgary, the most southerly D-3 in the province, has rated a sulphur content of between 13.8 and 14.2 percent, second highest in the province. The sulphur content exceeds substantially the amount at Pigeon Creek and Dunnville, and is exceeded only by shale MacKee, 20 miles southwest of Calgary with a reported 23 percent."

"The sulphur adds further significance and value to an outstanding discovery. Sunday's well flowed 200 barrels daily. Canadian Natural Gas Company will submit a contract to each town interested within the next few days, when this is received the matter of a gas supply will be further discussed by representatives of the various towns interested."

Canadian Western Natural Gas Corp. has officially announced plans for distribution to the various towns, showing just where the gas lines would run, but an estimate of cost was made at around 50 cents per 1000 cubic feet of gas used, compared with the Bailey estimate of 45¢ to 45¢.

No definite date was mentioned when the company would start construction of the lines but in the Bailey contract, which has been received by the towns interested, the time limit set for starting construction is December 1952.

When the two contracts for a franchise are received and compared no formal engineering arrangement will be worked out for a supplemental section.

FAREWELL FOR MR. AND MRS. REG. CROIZIER AT ELDON

A delightful farewell Sunday dinner was held at the home of Mr. and Mrs. Frank Byrt of Eldon on their departure to their youngest daughter and her husband, Mr. and Mrs. Reg. Crozier, who left for their home in Prince Rupert, B.C.

Those present were Mr. and Mrs. M. Campbell, Mr. and Mrs. Francis Byrt and Brian, Mr. and Mrs. John Bagshaw and family, Mr. and Mrs. Charles Byrt and family, and Mr. and Mrs. Ernest Fisher and family.

CANADA A FLAGLESS NATION

O Canada! Our home, our native land.
True patriot love in all thy sons command.

Tis well said, well meant, honourable and great.
The motive that inspires and welds the state,

But where is the emblem, the flag to wave?
From the sea, to call our youth strong 'n brave
To their task to build a glorious nation

With cross enshrinéd; our bulwark, our foundation.

Anchored in truth, a working faith that leads
To great and noble visions, to heroic deeds.

Undaunted valor that vigilantly
From letters of case hardened pharisees;

Expressing a new birth of freedom under God,
And save us from a self-inflicted chafing rod

PIONEER CITIZEN

Definite Information Lacking on Gas Project

Representatives from towns between Airdrie and Penhold met with officials of Canadian Western Natural Gas Company at Olds on Thursday evening, August 9, to discuss plans for a natural gas supply, with a view toward getting information on a definite contract, but actual information is still lacking.

The sulphur content exceeds substantially the amount at Pigeon Creek and Dunnville, and is exceeded only by shale MacKee, 20 miles southwest of Calgary with a reported 23 percent.

"The sulphur adds further significance and value to an outstanding discovery. Sunday's well flowed

200 barrels daily. Canadian Natural Gas Services, engineers for the project, place the well's potential as "in excess" of 50,000,000 cubic feet daily.

The well is slated to run production tests for about 60 days to gather further information about the gas.

Latest word on tests run at the well on Monday is that production was increased to 24,000,000 cubic feet of gas daily, with the result that naphtha content of 400 barrels per day was recovered.

When the two contracts for a franchise are received and compared no formal engineering arrangement will be worked out for a supplemental section.

Zella Residents Win Prizes at Olds Fair

Zella can be proud of its Olds Fair winners. Mr. and Mrs. E. J. Egan, who won the award of best of show and a basket of potatoes, and Mrs. Hansen won first for a knitted sweater in the handcraft section.

Miss Winifred Broadhurst, employed at Nanton, was a visitor for a few days with her sister, Mrs. E. Waldrup.

The youngsters of the district have enjoyed the week of Vacation-Bible School held at the Moravian Church. The school concluded with a picnic at the church on Saturday afternoon.

In a letter to friends, Mr. and Mrs. Leon Grace state that they have returned home to Sycamore, Vancouver Island, near Mr. and Mrs. Charles Bacon, who were residing here until a few years ago.

Mr. and Mrs. Wilbur Jahnke and family of Camrose spent the weekend with relatives, Miss Jeanette Rindal, who has been holidaying in Canada for the past two weeks, married down with them.

Miss Marie Toppin returned to Calgary on Monday after spending the last two weeks with her mother, Mrs. Nina Toppin.

The Harmattan softball team met the Zella team for a game at the school last Thursday evening. With a score of 5-5 the game was called because of darkness.

No Place Like Home

CANADA'S TOURING DAVIS CUPPERS. Lorne Main (left), of Vancouver, Brendan Macken (centre) and Henri Racine (right) of Quebec City recently arrived at the Empress Hotel in Victoria, B.C., to begin their tour of Canada. They say there's no place like home. They will meet Cuba in the Davis Cup match to be played in Montreal August 3, 4 and 5 at the Mount Royal Tennis Club.

Jamboree Parade Features Many Outstanding Entries

The big parade held last Wednesday morning in conjunction with the Didsbury Lions Club Jamboree was one of the best held so far and the crowd which lined the streets enjoyed the half-mile long parade immensely, with fine weather prevailing.

The parade started off at Rosebud Motors at 11 a.m. and was headed by one of the real old timers, J.V. Berschi, followed by the band from the Mount Royal High School band, the Diesel panel delivery, A.G. Studer winning first in line, then the 25th Anniversary L.O.D.E. float; Mrs. W. McCoy's decorated car; Cliff Club float; Health Unit float; 1st Troop Boy Scout float; Junior Red Cross float; and West End Legion float.

Decorated bicycles—1st Margaret Larsen, 2nd Bonnie Clarke, 3rd Darlene Santa.

Ed and his dog—1st Yvonne Grange, 2nd Bob and Don Sukkling.

Best turned out rider and mount (any type)—1st Valetta Klein, 2nd Delbert Fulkerton, 3rd Florence Reid, 4th Don Irwin.

Best turned out rider and mount (Shetland class)—1st Diana Roth, 2nd Bill Clifford, 3rd Bobbie Klein.

SPORTS RAINED OUT

After the parade the crowd moved on to the central sports arena. Competitions were under way and the ball games were to be held, but rain started falling and the sports were temporarily held up.

The first game between teams from Grand Coulee, Washington and Mountain View, All Stars started about 1:30 p.m. and a small crowd was on hand to see first class baseball. The new bleachers were filled with enthusiastic spectators who witnessed one of the best game of baseball ever to be played in the small town of the Stars winning by a 2-0 score.

Due to non arrival of the Red Deer team the Junior baseball was not played, and with rain again setting in the final senior ball game was finally cancelled. The rain continued and the rest of the day's program was washed out.

The day was cold and rainy with a small number of buyers and lack of competition in the bids. In general Mr. Fullerton was keenly interested in the results of the sale. He was the first man to import this breed of horses in western Canada and this sale winds up a quarter century of selective breeding which did much to improve the quality of the horses in this part of the west. Joe Fulkerton's horses were known from Vancouver to Halifax and a number were exported to the States where they won prizes at State fairs.

Highest price for any animal of the sale was \$500 paid by Ray Gale of Bismarck, for the two year old gelding. Mrs. McLean, who had bid \$100, Mr. McDougall of Calgary paid the next highest, \$410, for the five year old chestnut show mare Sue Genius. Miss Alta Loker of Medicine Hat paid \$400 for Dempsey Peavine, another chestnut mare.

Seven steers were sold, three mares and four yearlings. The great Stomwall Barrymore, a coal black standing in hands imported from the States and now seven years old, has headed the herd with outstanding results but brought only \$100, while a two year old gelding, Another Fortune, sold for \$285. Bell Champ went to W.C. Bell of Vermilion for \$285, while Glen Neufeld of Didsbury paid \$275 for a black yearling of outstanding promise.

Average price for the 41 horses sold, which included a general purpose team and several grade and crossbred horses, was \$195.

Arrangements were made to pur-

New Locker Plant Opened At Neapolis

Central Alberta Dairy Pool officially opened the locker plant at the Neapolis cheese factory on Friday afternoon, August 10, when a large crowd gathered for the special event.

To mark the opening lunch was served to the visitors and a draw was made for eight free lockers for one year. Lucky ticket holder were: John G. Smith, Henry Harder, H. S. Charlton, Neil Neufeld, Fred Witte, George Dahl, Abe Loewen and A. J. Sawatzky.

The frozen food locker plant at Neapolis is a modern plant, using Calgary Power Co. electricity. There are 205 modern steel lockers, 16x24x30 inches in size with large quick-freeze compartment to handle the product.

With the opening of the new plant at Neapolis many farmers will now be able to obtain locker space nearer to home, and thus relieve the plants at Olds and Didsbury, which have not had sufficient lockers in the past to meet the demand.

Shower At Cremona Honors Jean Bouc

Fifty guests gathered at the home of Mrs. L. Bergeson of Cremona on Friday afternoon, August 10, to honor Miss Jean Bouc bride-elect of this month with a mischievous luncheon.

Miss Bouc received her many gifts seated under pink and white streamers. She was assisted in unwrapping the gifts by her two cousins, Misses Phyllis and Alma Bouc.

During the afternoon contests were held. Mrs. Chas. Reid gave a ride, held, Mrs. A. Bouc rendered a solo.

To end the pleasant afternoon a dainty lunch was served by the hostesses, Mrs. K. Bergeson and Mrs. W. Papke.

Penalties For Ladies Of Bancroft Institute

The August meeting of Bancroft WI, was held at the home of Mrs. Frank Taylor with nine members and two visitors present. After the usual opening, a call was made for a report on the favorite salad recipe.

A report was given on two meetings held in Carslars to consider securing a rest room for that town.

Mrs. G. Hoskin gave her report on the Constituency Conference. She mentioned that systems adopted when members failed to be penalized for failure to answer roll call, failure to attend meetings and failure of convenors to turn in their papers within a month after they have been given. The losing side is to treat the winners at the end of the year.

Each member is to bring an article for a layette to the September meeting.

Reports were given by Mrs. A. Marsh, supervisor of Bancroft Girls' Club, and by Mrs. A. Stewart and Mrs. F. Taylor who attended Women's Week.

Mrs. P. Hauser gave out pamphlets on cancer control.

Mrs. L. Burnett won the raffle.

The meeting adjourned with God Save the King, and lunch was served by the hostess.

M.D. Gets \$81,868.27 From Municipal Assistance Board

With Reeve W.H. Metz presiding, and Councillors FOX, Niddrie, Dodd, Goettin, and Roeder present, the regular meeting of the Council of the Municipal District of Mountain View was held in Didsbury on Aug. 6.

A communication from the Provincial Secretary advised of the amounts each Municipal District of Alberta would receive under the Municipal Assistance Act, and the Municipal District of Mountain View No. 49 received the second highest grant in the province, amounting to \$81,868.27. This was only exceeded by the Municipal District of Vermilion which received \$131,230. The above comprised \$80,335 in Tax Reduction grants and the Municipal Revenue grant of \$46,785.92.

A notification from the Department of Lands and Mines advised that a lease was granted on a road allowance east of the town of 36-28-16 to G. McPhail, of Crossfield.

The Alberta Assessment Commission notified Council that it will hear the ten year assessment appeal made to the Commission at a court of revision to be held at the Municipal office in Didsbury on Thursday, August 16.

Arrangements were made to pur-

His face deeply lined, KING GEORGE is shown above as he returned to Buckingham Palace in London after his convalescence. The King spent three weeks at Windsor to recuperate from his attack of bronchial catarrhal inflammation of the lung.

WESTERDALE

A meeting of the Willing Workers was held at the home of Mrs. A. Buckley last Wednesday, and those with whom the meeting was presided over said all calls were answered with "my most treasured possessions." Due to the small attendance only a short meeting was held, and Mrs. D. Herbert, Mrs. F. Herbert and Mrs. W. Wigley were appointed to make program booklets for next year.

A renewal was sent in for the Geographical Magazine for the school.

A very interesting paper on Cancer was given by Mrs. T. Bolton.

The tea money hostess prize was won by Mrs. H. Jackson.

The next meeting will be held at the home of Mrs. P. Schrader on September 12.

Mrs. A. Bolton of Calgary visited the home of Mr. and Mrs. J. E. Bolton.

Mr. and Mrs. A. Jones and family accompanied Mr. Stan Hunt on a motor trip to Trochu and Pine Lake on Friday. They returned home on Sunday evening.

Mr. H. Jackson was a patient in the Didsbury hospital for four days.

Mr. L. Jones is doing some carpenter work at the home of Mr. G. Nelson of Olds.

Mr. and Mrs. W. Herbert motored to Sylvan Lake last Sunday.

WESTCOTT NOTES

The John Bogner family of Calgar spent Sunday at the farm here and were accompanied to the old home at Westcott by Mr. Neil Folkman who is employed in Calgary.

Miss Deloye Goetjen spent the weekend at home. Deloye has accepted a position to teach the elementary grades in the Eckville schools.

Mr. Wilbert Bercist of Commandment, Oils, Calmar, spent the weekend in Didsbury district and was accompanied to the H. Goetjen home on Sunday last by Mr. Dave Wright.

Miss Lorna Smith of Calgary spent the weekend with Miss Margaret Robertson.

Mr. and Mrs. Ron Burton spent the weekend at the home of Mr. and Mrs. Nelson and Duane.

Congratulations to our teacher, Mrs. Allen Konschuk, and to our Grade IX's who made such good results in the June examinations. Mrs. Konschuk had six in her Grade IX class last term.

Mrs. Jack Robertson left by plane Friday to visit with Mr. and Mrs. Jim Morrison and family in Ottawa, Ontario.

Mr. and Mrs. Jack Newton and daughter Marion and granddaughter Lois of Skiff, Alberta, called on Mr. and Mrs. Herbert Goetjen last Tuesday afternoon, and on Mr. and Mrs. Harry Levagood in the evening.

Mr. and Mrs. Herbert Goetjen took the B.C. folks who were visiting them out to Canadian Superoil location at Acme last Thursday. The country out that way looks very prosperous with wonderful crops if the hail and frost stay away awhile longer.

Mrs. Landeen of Calgary spent last week with her daughter, Mr. Bill Weidner, and Mr. and Mrs. Weidner and family.

Mr. and Mrs. Clarence Reinhardt and Mr. and Mrs. Bernal Reinhardt and daughter Linda were guests at the Schneidmiller-Ross nuptials in Calgary on Saturday afternoon last. Both families also well known in the Didsbury district.

A couple of fields of early-sown barley on the farms of E. Walker and Fred Goetjen are making a fine showing against all the green crop around them. This reminds us that harvest time is still too far away, but it is quite a relief to know that weather is needed badly in this area to ripen other crops. Bare we hope for that?

WEDDINGS

MCGAFFIN—BOYNTON

A recent wedding was solemnized at the Ogden United Church when Miss Dorothy Marie Boynton, only daughter of Mr. and Mrs. N. S. Boynton of Ogden, was given in marriage and tattooed to Mr. Harry William McGaffin, son of Mr. and Mrs. Wm. H. McGaffin of Didsbury. The Rev. Mr. Ball officiated at the service.

The bride was lovely in a beautiful dress of traditional white satin and lace. She wore a white veil held in place by a tiny sprig of blossoms and her only jewellery was a gold necklace of tiny hearts given her by the bridegroom. She carried a basket arrangement of beautiful white carnations centred by a single rosebud.

The matron of honour, Mrs. Leilla Fulton, wore a becoming blue taffeta gown and carried a bouquet of pink carnations.

The bridesmaid was Miss Grace Shells, who was charming in a white dress of traditional white satin and lace. She wore a white veil and carried a bouquet of white carnations. Mr. Glen Cooper acted as best man and Mr. Kenneth Walls and Mr. Billy Dick were ushers.

Miss Margaret Boote sang "I Love You Truly" before the ceremony and during the signing of the register. Mrs. Boynton, the bride's mother, wore a navy nylon with white lace and a wide white hat. Her corsage was pink carnations.

A reception for 100 guests was held in the St. Augustine Hall at Ogden. The bride's mother and the groom's mother received the guests and during the reception Mrs. Robert McCall said "Always."

The bride's cake was decorated with a three-tiered wedding cake. Mr. Phillips gave a toast to the bride which was ably responded to by the groom.

Mr. and Mrs. McGaffin were the recipients of many beautiful and useful gifts.

The bride's going away suit was gray gabardine with wine accessories, and her corsage was of yellow roses.

After a short honeymoon in Great Falls, Montana, the happy couple will reside in Calgary.

Mrs. Lloyd Fischer is at present a patient in the local hospital.

DIDSBURY DISTRICT IN LIMELIGHT

Didsbury and district once more is coming to the fore in provincial circles and at the present time the populace of the province, dominion and United States is looking up to the possible development that may be centred by Didsbury within the next few years.

The reason for this new development is the bringing in of the Bailey-Olds No. 1 well in an entirely new area as a tremendous wet gas discovery which may rank in production to the Pincher Creek gas field, and with a potential of fifty million cubic feet of gas per day. The well has oil production besides, but how much is still to be determined.

Then there is the wet gas discovery well at Superior Robertson west of Didsbury, which has discovered another new area, although as yet not in commercial quantities.

With the gas discoveries has come an almost certain installation of a gas system in our town, as well as other towns between Calgary and Red Deer, and future citizens are now casting their eyes in this direction as a possible place in which to live, with modern water and heating facilities available such as only the larger centres now enjoy.

But Didsbury is not only in the limelight as far as gas and oil is concerned. Last week Gwen Clarke and Kenneth Morris of Didsbury were chosen to represent Alberta in the junior dairy judging class at the Toronto Royal Fair next November. They will make a good showing with their past experience in junior dairy calf judging competitions, and we are proud of them.

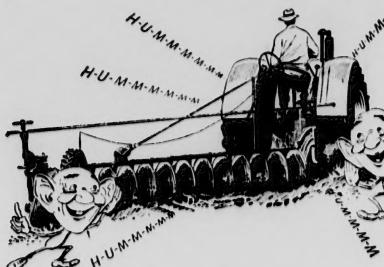

Then there is the sale of Fulkerth saddle horses which was advertised all over Canada and the States and was held last Saturday at J.W. Fulkerth's farm just east of town. Joe Fulkerth has brought honor to himself and to Didsbury during the past 25 years he has been raising his famous horses and many horse lovers in Canada and the United States will always remember him and his town when showing and riding their saddle horses.

This year, while crops are late in the entire province, the Didsbury district has the possibilities of raising the largest grain crop in its history and travellers from near and far tell us that the grain crops around here are the best they have seen.

Over 250 farms both east and west of Didsbury are now served with rural electrification which is a great boon to farm homes and services and which is making life on the farm worthwhile.

The official opening of the food locker plant at Neapolis on Friday has made many people in the area conscious of the possibilities of our district, especially when an organization like the Central Alberta Dairy Pool has sufficient faith in the district to open a modern plant in a distinctly dairying and farming community.

Didsbury and district has been well-favored over the years and no one knows what the future will bring, but one thing is certain, our community has all the possibilities of a major marketing centre in the years to come, and it is up to each and every one of us to do our utmost to see that progress continues.

**Makes all your Farm Machinery H-U-M-M**

Marvelube Gear Oil reduces friction to a minimum. Enables your tractor to deliver maximum power at the lowest cost. That's where it comes in. It is a high grade, fully refined lubricant that's clean and gives maximum protection to gear tooth surfaces—be it your precision built tractor, truck or combine. Marvelube Gear Oil is proven two ways—in the laboratory and in grueling field work.

Marvelube Grease is a high quality, water resistant grease that positively clings to whirling bearings. It gives full protection to moving parts and holds its consistency over prolonged periods of use. There is a grade for every need and season. No. 0 for cool weather, No. 1, full bodied, for heavy duty lubrication and No. 2 for hot weather use when going is toughest.

There is extra protection in every Marvelube Grease and Gear Oil. Use the one that's best suited for your job.

**Agricultural SERVICE BOARD NOTES**W.K. Snyder,
Field Supervisor**PERENNIAL SOW THISTLE**

I think most people are familiar with this weed as it is rather prevalent to some degree in a large section of the Municipality. It is a deep rooted perennial with large and vigorous running root stocks. Stem from one to three feet high, branched, with few leaves and branching at the top. Whole plant is filled with a bitter milky juice. Flowers are bright yellow, one and one-half inches across. This weed produces a large amount of seeds together with its vigorous growth. Root stocks make it one of our most aggressive weed enemies. Whenever established it will crowd out the crops almost completely. In Manitoba perennial sow thistle is considered one of the worst of fall weed pests. If left undisturbed its seed ripens before the plant is cut and are carried over to the next year.

During the last two years we have had occasion to observe at first hand the effect of 24-D on this weed. The results of this observation indicate to us that this bad weed can be effectively controlled or eradicated if applied early in the spring of the year when the plants are almost full grown, they seem to yield to chemical treatment. Where there are only small patches it would seem worthwhile to walk through the field with a knapsack sprayer and spray each patch. It is easier to take care of a small patch than a large one. "A stitch in time saves nine."

Municipal Assistance Cheques Sent Out

All municipal taxpayers in the Province of Alberta are benefitting from the first grants of assistance to municipalities made by the Government of Alberta under the Alberta Municipal Assistance Act, apportioned at the last session of the legislature.

Cheques for a total of \$1655.029 have been mailed by the Provincial Treasurer to 320 municipal governments in Alberta. The City of Edmonton received \$841,735 and the City of Calgary \$635,525, the other five cities share a total of \$828,768.

The 66 towns in the Province received a total of \$463,682; 137 villages, a total of \$219,891; two counties a total of \$119,130; 54 municipal districts, \$182,144; 53 municipal areas, \$247,125; and the Southern Special Areas Administration, \$49,98.

The money was distributed in two forms. A total of \$1,592,224 was paid out in conditional taxation subsidies, i.e., for each mill that a municipal government receives in taxation it receives an equivalent amount of subsidy to a maximum of three mills. The remaining \$5,072,805 was paid out in unconditional municipal revenue grants to all the 320 local governments.

The conditional tax reduction subsidies paid first out of the pledge portion of the mill and the balance is divided unconditionally among all local governments on the basis of the previous year's assessment total for each local government. This unconditional revenue grant will be approximately \$1.50 per one-half mill for each local government's mill rates over the years. This

year it amounted to an equivalent of \$3.67 mills revenue for each local

one year, raise its tax rates and then the next year collect additional grants by lowering its rates again.

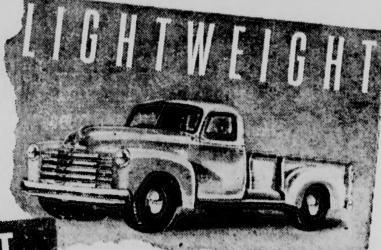

The Province's self liquidating projects fund for 1951-52 is \$7,000,000; the 1950-51 fund was \$5,000,000. Under the act, municipalities may borrow money at two per cent interest from the fund to finance such projects as sewer and water installations.

IN EVERY CLASS...

For stamina and hauling power, Chevrolet truck engines are "knockouts" too. And, of course, all three of the famous Chevrolet Truck engines—the 92-HP Thriftmaster, the 105-HP Deluxe, and the impressive, 114-HP Torquemaster—are justly renowned for their amazing operating economy.

WEIGHT

Combining smart new styling with utility, Chevrolet pick-up trucks are speedy, rugged all-purpose units. Like Chevrolet panel trucks and the distinctive sedan delivery, every unit offered in the big Chevrolet selection of lighter models is a masterpiece of practical, durable construction and time- and money-saving features.

**HEAVYWEIGHT**

In every size and weight class, Chevrolet Trucks have every feature that contributes to better haulage at lower cost. Sturdy, durable frames . . . powerful, fast-acting brakes with helmetically sealed brake cylinders . . . silent, smooth, ruggedly-built synchromesh transmissions are among the many features that help to make Chevrolet trucks tops for value and performance. The stake truck illustrated is just one of the many versatile performers in the medium range of Chevrolet trucks.

For the biggest, heaviest loads, and the longest toughest hauls, you can put your faith in Chevrolet trucks—and be sure of top-flight performance and maximum operating economy. In the heavy-duty field as in every other, Chevrolet trucks are designed and engineered to provide the greatest possible load space at lowest cost, combined with operating economy, equalized weight distribution and easy handling. Whatever your haulage needs, you can be absolutely sure there's a Chevrolet Truck that's exactly right for your purpose. See your Chevrolet Truck dealer!

M.V.B.C. NEWS

A number of men are very busy in the third building preparing room for the annual meeting of certain public school classes. These rooms promise to be adequate and when finished will be quite comfortable for many little folks that shall be taught there during the winter months.

Quite a number of new students are enrolling in the Bible department. We have the most departments within the district, and trust that many more shall take at least some of the courses offered. There are always those who can take a few subjects only, and there may be those in the town who would like to avail themselves of this opportunity. We are always glad to discuss such matters with those who want information.

On Monday a number of ladies from the United Missionary Church Mountain View district offered their assistance in preparing the rooms for the winter months. Miss Grayce Stettler, local girl, is now interested in this work. She is always glad for help and any who would so desire could contact her regarding any gratis work they might wish to do in these very busy days. There is still much to be done.

Our friends are still bringing in provisions. A number of high school students are coming down the first days of September, and provisions such as our Didsbury friends are accustomed to bring will be gratefully received. A number of people responded to our call for canned fruit some time ago, and we did appreciate the wonderful response.

Miss Greta Anderson, a student of last year, is now specializing in the local hospital until College opens. Miss Joyce Burgholder, who will attend this coming winter is also in the hospital as special nurse. There will be three Registered Nurses in our College this winter.

Graduates of the College are filling places of responsibility throughout many countries. Miss Linda Smith is preparing to go to India as a mission nurse. Letters come from Nigeria, West Africa every few weeks from those who once were students here. Many of the pastors in the United Methodist Church Conference of Alberta are also graduates. Some are good teachers, some are mechanics, others are on farms, in homes, serving in some useful capacity. It has been worthwhile for them to better fit themselves by taking work in our own local College. We are proud of our graduates.

BEETLES DAMAGE
GARDEN PLANTS

Many gardens in Alberta are being destroyed by a small red beetle which eats the leaves of cabbage, radish, turnips and beans.

W.A. Lobay, Supervisor of Crop Protection of the Alberta Department of Agriculture, had identified this as the Colorado potato beetle and stated about one-quarter of an inch long and marked with three definite black stripes down the back and a conspicuous triangular shaped black patch near the head. It also is black on the underside. D.D.T. or Rotenone is recommended as a good way to control this pest. D.D.T. should be used at the rate of two tablespoons of 50 percent powder per gallon of water. D.D.T. should not be applied if the above-ground parts of vegetables are to be eaten.

FALL RYE

Fall rye tends to be the expected crop in the family of cereal grains, says J.E. Birdsell, Supervisor of Crop Improvement, Alberta Department of Agriculture. It is usually thought to be suitable only for soil that is light and unfertile, and so not good enough for such a crop as wheat. Fall rye can be made into light, white flour, nor is it so palatable to livestock as other cereals. Nevertheless, it has several virtues that should not be overlooked when the farm cropping program is planned.

Fall rye is one leading as a competitive crop. Few weeds can survive in a good stand. Since it is usually sown before the end of August it provides a cover crop to prevent soil drifting. It is resistant, and so can withstand a heavy frost attack. It may be used as pasture in the spring and fall but this is not advisable where weed control is the main objective. Distribution of labour throughout the year is an important objective on any farm. Fall rye production will help with this since it is sown in the summer and is usually harvested before other cereals.

Hunting Dates Set
For Migratory Birds

The Canadian Wildlife Service has issued the latest migratory bird laws for ducks, geese, rails and coots in the southern district of Alberta. The dates of the seasons will be open September 22 to October 22 in the Northern Alberta District. The season will be from September 8 to November 6; Edmonton District November 15 to November 13.

The Alberta Districts are described as follows:

Edmonton District — That part of the Province lying south of the Northern District and north of a line described as follows: Commencing at a point where the centre line of Highway No. 12 intersects the east boundary of Alberta; thence westerly along the said centre line of Highway No. 12 through Coronation and Stettler, to the point of intersection of the centre line of Highway No. 12 with the centre line of Highway No. 2; thence southerly along the said centre line of Highway No. 2 to its intersection with the centre line of Highway No. 11; thence westerly along the said centre line of Highway No. 11 to its intersection with the boundary of Alberta.

The Southern District is that part of the Province lying south of the Edmonton Zone. The following are regulations applying to Alberta:

Closed seasons. There is a close season throughout the year on wood ducks, swans, cranes, and Ross's geese; on all shore birds except Wilson's snipe; and on all migratory non-game and insectivorous birds.

Bag limits — In any day: ducks, 10; geese, 5; coots and rails, 10; Wilson's snipe, 16. Migratory game birds lawfully killed may be possessed in Alberta at any time.

Prohibited weapons — No person may hunt migratory game birds with a rifle, with a shotgun that has a barrel less than 20 inches in length, or with a shotgun loaded with a single bullet.

Hours of shooting — No person shall hunt migratory game birds from one half hour after sunset until one-half hour before the next day.

Other restrictions — No person shall shoot geese in Alberta within 100 yards of the edge of the waters of the North Saskatchewan, Red Deer, Bow, South Saskatchewan, Oldman, Smoky, or Little Smoky Rivers, or any place where migratory game birds in Alberta within one-half mile of the edge of the waters of Sullivan, Beaverhill, Buffalo, Ministik, Whitford, or Kenilworth Lakes.

The season for Wilson's Snipe in the Southern District is from September 1 to October 8; Edmonton District September 15 to October 15; Southern District, September 22 to October 22.

Federal Rules

Under Migratory Bird Rules for 1951, effective throughout all Canada, it is forbidden to use any of the following:

- (1) Any weapon or means other than a gun not larger than No. 10 gauge or a bow and arrow.
- (2) A swivel gun; a machine gun, or a repeating gun.
- (3) Live birds as decoys.
- (4) Night lights.

(5) An aircraft, a power-boat or a sail-boat, in actual hunting. An aircraft, a power-boat, or a motor vehicle to disturb birds in order to drive them toward a hunter.

Penalties include:

- (1) Shoot migratory game birds from any wheeled or motor vehicle, or any vehicle to which draught animals are attached.
- (2) Have with one for one's own use while hunting migratory game birds a shotgun larger than one shotgun at any one time.
- (3) Hunt migratory game birds by the use or aid of baiting, or within one-half mile of any place where baiting is taking place or has taken place on or subsequent to the first day of open season for ducks and geese in that area.

The penalty for violation of any provision is a fine of not less than \$10 and not more than \$300, or imprisonment for not more than six months, or both fine and imprisonment.

PROTECT STOCK

One of the principal concerns of the Brands Recorder of the Department of Agriculture is the carelessness with which owners brand and market their stock. A poor job of branding will detract the protection offered by a brand.

Some causes of poor branding are the use of poor irons, the use of acid brands which tend to blotch and blur, the application of irons at too high a temperature, and the use of unregistered brands.

It is illegal in Alberta to apply any brand unless it is registered with the Brands Recorder in the name of the person applying the brand.

Mrs. Gordon Weber's cousins, Mr. and Chester Spreeman, spent the weekend visiting Mr. and Mrs. Gordon Weber and family.

Mr. and Mrs. Cecil Weber and Douglas were Sunday guests at the G. Weber home.

Mr. Donald Weber, Mr. Isaac Spelman and Mr. and Mrs. Chester Spreeman were Monday dinner guests of Mr. and Mrs. Alan Speerman of Olds.

Mr. Ted Bowday of Kitchener, Ontario, spent three days visiting Mr. and Mrs. W. A. Sherrick and other relatives.

Mr. and Mrs. W. A. Sherrick and family visited on Monday with Mr. and Mrs. Verdo Sherick.

Mr. and Mrs. J. B. Hippkin and Patsy were Sunday evening visitors with Mr. and Mrs. E. A. Bartz.

Mr. and Mrs. A. Edwards and family were Sunday evening visitors with Mr. and Mrs. Jack Edwards and other relatives in the district.

Mr. and Mrs. Hugh Morton and Mrs. Wallace of Calgary were Friday evening visitors with Mr. and Mrs. Tom McNeil.

Mr. and Mrs. Grams were Monday evening visitors with Mr. and Mrs. M. Dippel and Carole.

Mr. and Mrs. Ken Wood were visiting for several days with Mr. and Mrs. Lynn Hunsperger.

Mr. and Mrs. Ken Wood, Mrs. D. B. and Mrs. M. C. Smith and Mrs. Lynn Hunsperger and family were Sunday dinner guests of Mr. and Mrs. Glen Jackson of Acme.

Mr. Lynn Hunsperger and Mrs. D. B. Wood plan to attend a Tupperware tea at the home of Mrs. Glen Jackson.

Mr. and Mrs. Meyer and Mr. E. A. Bartz were Wednesday visitors at Trochu and Three Hills.

Mr. and Mrs. Nelson Evans of Oyen were Thursday afternoon visitors with Mrs. Geo. Meyer.

Mr. and Mrs. Bill Spangler spent Saturday evening with Mr. and Mrs. E. A. Bartz.

Mr. and Mrs. John Folkman were Friday evening visitors with Mr. and Mrs. E. A. Bartz.

Sunday afternoon visitors at the Bartz home were Mr. and Mrs. August Britten and Mr. and Mrs. George Meyer and George.

Mr. and Mrs. August Britten and sons were Sunday dinner guests of Mrs. George Meyer.

WEST NOTES

The Elton Willing Workers met at the home of Mrs. H. Erickson on Wednesday last with most of the members present. It was decided to accept the offer of one of the members to host the meeting in his home in return for word to line one for the members to raffle. Owing to the absence of the president and the vice president, Mrs. E. Barnard was appointed to preside when the other officers are absent. The next meeting will be at the home of Mrs. A. L. Hogg, and members are asked to remember their thimbles.

Mr. and Mrs. W. Riggs and Mr. and Mrs. A. L. Hogg returned last week from an extended trip to Great Falls, through the Glacier Park, Banff and Jasper.

Mr. and Mrs. M. Campbell were Calgary visitors on Saturday.

Mrs. I. Hogg and son of High River and Mr. B. Hogg of Victoria, B.C., visited Mr. and Mrs. M. Hogg on Friday. Although Mrs. Hogg came to the High River district in 1944, this is the first time she has visited her nephew.

Mr. and Mrs. H. Hoegegen spent Saturday evening with Mr. and Mrs. G. Thompson.

Mr. and Mrs. F. Byrt of Madden visited the former's parents on Saturday and in the afternoon attended the Fulkerton sale.

Mrs. Arnold Hogg and wife Anette are visiting the former's sister, Mrs. McMann of Eckville.

Mr. and Mrs. K. Krebs, Mr. and Mrs. H. Krebs and Mrs. O. Krebs were among those attending the Olds Fair.

Mrs. O. Thompson drove to Drumheller on Saturday evening and Mr. and Mrs. H. Bjorjan and Mr. and Mrs. E. Erickson joined them.

Mr. and Mrs. W. Brown of Chilliwack, B.C., are visiting in the district, and along with Mrs. O. Krebs and Mr. and Mrs. H. Krebs they spent Monday evening with Mr. and Mrs. Arnold McCulloch east of town.

How we would love to give B.C. some time off.

Jack McCoy has been brightening up the exterior of some of the local business places with a coat of paint. On Monday he painted the outside of the Sunrise Coffee Shop, and Tuesday he was working on Reiber Brothers office.

Jack McCoy has been brightening up the exterior of some of the local business places with a coat of paint. On Monday he painted the outside of the Sunrise Coffee Shop, and Tuesday he was working on Reiber Brothers office.
